

Full Stack Web Developer Job Description

Company Culture/Introduction:

Super Dave's Auto Sales is a pre-owned dealership and business has been growing. We are a locally owned and operated dealership. We provide a wide range of services to our customers and would love to find another friendly person to join our team.

Job Description

We're looking for a Full Stack developer who will take a key role on our team. Our Full Stack developer must have knowledge in all stages of software development with a strong background in developing websites and a working knowledge of WordPress.

You'll be working alongside the marketing department to roll out new websites and applications for the Super Dave's family of brands, while supporting existing web infrastructure.

Full Stack Developer Skills and Expertise

Design overall architecture of the web application.

Has experience developing for WordPress.

Maintain quality and ensure responsiveness of applications.

Collaborate with the rest of the team to design and launch new features.

Maintain code integrity and organization.

Experience working with graphic designers and converting designs to visual elements.

Understanding and implementation of security and data protection.

Experienced with back-end programming languages ex: PHP, Python, Ruby, Java, .NET, JavaScript

Experienced using advanced JavaScript libraries and frameworks such as AngularJS, KnockoutJS, BackboneJS, ReactJS, DurandalJS etc.

Has experience with CSS and HTML

Development experience for both mobile and desktop.

Understanding of server-side languages

Knowledge of code versioning tools, in our case git.
