

Talentcor is currently recruiting for an **Operations Manager, Chemical Cleaning**, to work with our client in **Dartmouth, Nova Scotia**.

Accountabilities:

- Ensure on-site operations are conducted in accordance with corporate policies and procedures, within permit conditions and to customer specifications with a significant focus on health and safety
- Supervise daily operations and provide leadership to the operating team
- Evaluate and prioritize incoming work notifications and ensure that all scheduled work is completed in the allocated time
- Maintain and implement standard operating procedures (SOP's)
- Identify and recommend continuous improvements to processes and procedures
- Report all incidents, safety infractions, non-compliance issues and participate in the investigation and development of corrective actions
- Ensure all visitors to the site (Contractors, brokers, etc.) are complying with site and corporate safety policies
- Ensure the compliance of all contractors' site compliance utilizing Field Level hazard Assessments and Safe Work Permits
- Manage projects including scheduling, workforce planning/coordination and liaising with customers and other contractors.
- Supervise the execution of designated projects from start to finish; attend to pre-job planning and scheduling of workforce and equipment; oversee pre-job mobilization and demobilization; liaise with customer representatives before, during and after job while ensuring quality control measures are effectively implemented.
- Implement effective cost and quality control measures with a view to maximizing crew productivity and efficiency, operational readiness and profitability; and to ensure customer satisfaction.
- Assist in the development of production and delivery schedules while maintaining standard costs and managing inventory
- Conduct site visits prior to submission of quote/tender; in conjunction with the business development team to prepare and submit quote/tender package.

Qualifications:

- Post-secondary education in a Technical, Environmental or Chemical Engineering program
- Minimum 3-5 years in a supervisory capacity is required
- Minimum 3-5 years of operations experience in industrial/chemical cleaning and/or the Pulp and Paper industry
- Strong interpersonal and communication skills are essential for collaboration with cross-functional teams
- Ability to develop safe operating procedures
- Valid Class 5 Driver's License

- Proficient in Microsoft Office, Outlook, Excel, Word, and SAP
- Proven organization, time management and problem solving skills
- Demonstrated commitment to Health & Safety
