

Construction Foreman/Forewoman

Full time Construction Foreman positions available for digital sign installation across the Province with a veteran owned company. The construction foreman will be leading a installation team, while ensuring safety, compliance, proper use of tools, and transportation of equipment and tools. Wage is based on experience. Must be a leader and a problem solver with the following experience and requirements:

Experience to include:

Previous experience leading a construction team/crew

Anchoring experience in concrete, drywall, wood (mechanical and chemical anchors)

Experience installing video walls and display mounts

Previous experience with main brands of digital signage (Samsung, Prismsview, Nanolumen, Unilumen) an asset

Experience installing video walls and display mounts an asset

AV experience in terminating Cat6 and troubleshooting network connectivity is an asset

Experience fishing cables an asset

Requirements:

Able to work 44 hours a week with possible overtime opportunities (Monday to Friday)

Able to lift and carry minimum 50lbs comfortably and safely

Must have a clean drivers record (abstract is a requirement)

Understanding and commitment to labour code

Understanding and commitment to company safety policies

Must be able to plan ahead and maintain sufficient team consumables for every install site

Must be able to pass airport security screening to lead a team independently and work in major Canadian airports

Able to make digital submissions or work digitally with company site-specific and daily site documents

Experience with Microsoft Teams, Azure, Sharepoint an asset

A license and personal pickup truck (1/2 ton) an asset

This is a full-time employment opportunity that is project based. There are positions for a Halifax team starting 17 August, and a Moncton team starting 7 September. Please submit resume to
