

Mental Health Intervention Developer and Content Writer

Position Details

Position Information

Position Title	Mental Health Intervention Developer and Content Writer
Department/Unit	Social Work
Research Project	Resilience Research Centre
Location	Halifax
Posting Number	GP53-20
Employee Group	None
Position Type	Temporary
Duration of Contract (if applicable)	6 months, with possibility of renewal
Employment Type	Full Time
Full-time Equivalency (FTE)	1.0
Salary	\$52,000 per annum (40 hours per week)

About the Organization

The Resilience Research Centre (RRC) is an international group of scholars, practitioners, and policymakers from more than 20 countries who collaborate on research and knowledge mobilization projects. Over the past 10 years, the Centre has conducted many mixed methods studies with its global partners.

Job Summary

Reporting to the Principal Investigator (PI), the Mental Health Intervention Developer and Content Writer will adapt research into curriculum to help people build resilience. This is a knowledge mobilization position that will involve adapting research to practice, performing literature reviews, and then creating easy-to-read and simple-to-use training modules ideal for populations experiencing adversity and stress.

Key Responsibilities

- Conduct literature reviews and synthesize evidence.
- Adapt research into practice modules to help people develop resilience and other aspects of well-being.
- Contribute to presentations, reports, and journal articles.
- Support the evaluation of the program.
- Using the model, work with organizations to assist them with implementation and training.
- Work independently in, and in collaboration with, a team of research staff to assist in the fulfillment of projects.

Note

Qualifications

Graduate degree in a clinical/counseling field is preferred, with familiarity with research in the field of human behavioural and social sciences (e.g., psychology, social work,

educational psychology, etc). Clinical experience and/or experience in an applied research environment is preferred, though new graduates are welcome to apply. Demonstrated ability of excellent writing skills for evidence of report or journal articles is required, as well as the ability to adapt writing style to different audiences. Must possess excellent communication skills, both written and oral, and be able to work independently and as part of a team. Must be able to prioritize and manage multiple ongoing projects to support community organizations during program development. Familiarity with computer applications, including Microsoft Office (Word, Excel) is required. An understanding and interest in the field of risk and resilience is preferred. Experience conducting library research using on-site and on-line resources is required.
